REQUEST FOR A CERTIFICATE OF CORRECTION
UNDER 37 C.F.R. §1.322

A Certificate of Correction is hereby requested for the above-identified patent. The error is as follows.

The corrected title page issued on May 18, 2010 shows the wrong representative drawing figure. The drawing figure used on the title page is not the invention described and claimed in the patent. In the previous certificate of correction, Drawing sheets 1 through 5 (Figures 1A through 5B) were replaced with the correct drawing sheets 1 to 3 containing Figures 1 through 4. Therefore, when the Patent Office issued the new title page, it should have corrected the representative drawing figure. However, the representative drawing on the new title page was not corrected to correspond with the correct drawing figure. Figure 4 of the corrected drawings should have been used in the new title page. A copy of the Examiner's Issue Information Sheet is attached and shows the Examiner's indication that Figure 4 should be used for the representative drawing figure.

The Patent Office reissued the title page on its own initiative. The representative drawing figure on the title page should have been corrected when the drawings were corrected. Therefore, the mistake is the fault of the Patent Office.

A completed Form PTO/SB/44 is enclosed with this request.

Respectfully submitted,
